

The Conlan Company

Safety Manager

We are seeking a highly self-motivated **Safety Manager** to join our team.

This position reports directly to the Project Superintendent. The Safety Manager works to ensure the safety of employees, subcontractors, and the general public on the project(s). The Safety Manager is responsible for enforcing Conlan's Environmental, Health & Safety Program, as well as local and federal safety standards on jobsites. The Safety Manager must be highly organized, thorough, and detail-oriented. The person must also possess the ability to plan, coordinate and support daily jobsite environmental health and safety program functions for a designated project.

Position Responsibilities

- Ensure consistency with Federal, State and Local compliance and site-specific regulatory requirements
- Monitor project activities with the review of the construction management team and design procedures, programs and policies affecting construction safety on projects
- Assist in the development and acceptance of Job Hazard Analysis and Project Specific Safety Plans
- Engage in site safety inspections, coordinating corrections with all subcontractors
- Review and oversee procedures for the investigation of construction-related incidents and accidents
- Develop, implement and oversee STOP and SOP training for a multi-lingual work site
- Advice on Project Superintendent compliance concerns and preventative actions
- Maintain safety records while onsite full time
- Provide field presence and project support with coaching
- Conduct periodic safety inspections on job site to ensure safety compliance
- Perform miscellaneous duties as assigned

Required Experience, Knowledge and Skills

- Minimum 10 years experience in construction safety
- Authorized OSHA 500 Construction Outreach Trainer
- Working knowledge of OSHA 1910 and 1926 Construction Industry Regulations and Standards
- Experience with steel erection and fall protection
- General knowledge in Loss Control and Workers Compensation Claims, Management acquired through documented hands-on experience
- Must be able to travel to construction sites across the United States
- Ability to train, influence and motivate team members
- Bilingual English/Spanish
- Flexible and adaptable
- TEAM PLAYER
